

Typing is Yesterday's News!

Special Offer! - JUST \$99.99!

BUY NOW!

SAVE \$25.00 off the retail price of \$124.99!

Speak directly into your computer and work three times faster!

With ViaVoice you can speak continuously and naturally at up to 150 words per minute and have your words dictated right into your favorite applications - you'll be amazed by the speech recognition accuracy. It's as simple as You Talk, It Types™.

ViaVoice for Mac OS X v10.3 comes with everything you need, including a FREE, designed-for-Mac, noise-cancelling Andrea USB headset microphone (a \$79.99 value).** It takes less than five minutes to teach the software how you talk and you're ready to go!***

ViaVoice is all about performance - this OS X edition is optimized for use with G4 and multiprocessors.

IBM's best-of-breed speech-to-text technology, including the new Command Center and re-designed Voice Center, use the Aqua OS X look and feel. Users can dictate, correct, edit, and format text with their natural voice in the IBM ViaVoice speech-enabled word processor, SpeakPad.

You can even use voice commands to navigate the Finder™ and control many of your Mac applications. ViaVoice has won several prestigious awards including Macworld Best of Show. It's perfect for letters, e-mail, chat, reports, and papers. So stop typing and start talking!

Act today! This special, limited-time offer is not available in stores and expires on April 30, 2005.
